## General Commercial Conditions:

Some of the parts we supply are racing sports parts which do not correspond with any authorization from the Federal Vehicle Authority. Almost all road parts however do have a general type approval.

### General

We provide our supplies and services exclusively on the basis of these commercial conditions. The commercial conditions of our business partners are also non-binding for us as long as we do not explicitly contest them. Deviating agreements must always be in writing.

### Quotations and prices

All our quotations are provisional until final confirmation (tel. order acceptance at the risk of the customer). These commercial conditions are accepted along with the order. For price calculations the prices valid at the date of delivery or the prices on the latest price list will apply. We have the right to pass on price increases made by our suppliers. Price increases to non-traders are correspondingly permitted if more than 3 months have passed between completion of the contract and the delivery. Special orders are only accepted with a 50% advance payment. The order imposes the duty of accepting the goods ordered. The statutory VAT, as well as packing and transport costs will be added to our prices.

### Shipment and delivery

All times for deliveries and services are subject to change. Binding time schedules must have been sent in writing by us. Our infirmity to fulfil the contract through no fault of our own will lengthen the delivery time by the duration of the hindrance. Six weeks after exceeding the binding or non-binding delivery date, the buyer can request that we deliver within an

#### Miscellaneous

Alterations to the goods we have delivered are not permitted nor is any alteration to – or removal of the brand name permitted. In the case of repairs, if nothing else has been agreed, the price will be established after completion of the work – cost estimates are non-binding. Insofar as damages arise in the execution of this work, liability will only be accepted in the event of gross negligence. Any form of liability is completely excluded for damages which are based on slight negligence.

#### Final agreements

The place of fulfillment and the exclusive location of the court is the headquarters building of our company. All agreements require the written form to be effective.
